
Agenda

- design feedback & reading discussion
- begin project designs
- git review
- inclusive design

Design feedback

From the reading:

- Comments?
- Questions?
- Quotes that stood out to you?

Design feedback

1 example each:

- helpful feedback that led to a breakthrough, led to you seeing something anew
- unhelpful feedback that was vague or hurtful

Also: examples of strategy you've used to *get* good feedback

Expectation

We will each commit to:

helpful feedback

respectful collaboration

Work time on projects

- Prioritize cards on your board
- Begin sketching or designing homepage

Designing for real life

*Discomfort with others' burdens has no place
in good design.*

- Comments?
- Questions?
- Quotes that stood out to you?

What is inclusive design?

Inclusive design

	Permanent	Temporary	Situational
Touch	 One arm	 Arm injury	 New parent
See	 Blind	 Cataract	 Distracted driver
Hear	 Deaf	 Ear infection	 Bartender
Speak	 Non-verbal	 Laryngitis	 Heavy accent

Inclusive design

Disability

happens at the

points of interaction

between a

person and society.

Inclusive design

Physical

cognitive

& social exclusion

is the result of

mismatched interactions.

Inclusive design

- Semantic markup

<https://gsnedders.html5.org/outline/>

- alt text
- using label for form inputs, not placeholder

WCAG

- A
- AA
- AAA

Color considerations

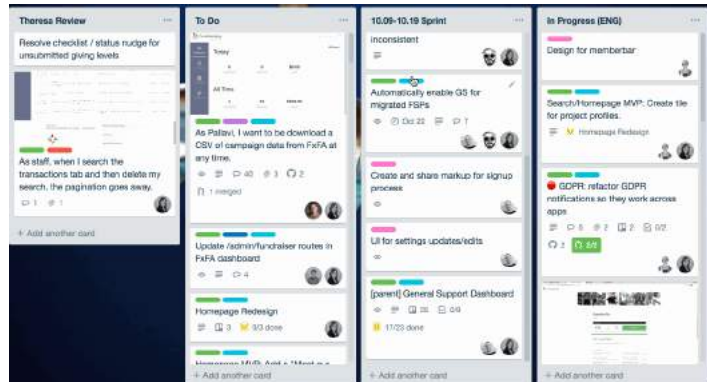

- Contrast between colors

<https://contrast-ratio.com/>

<http://contrast-finder.tanaguru.com/>

Color considerations

- Understandable without color

New colorblind friendly labels for monochromatic vision. Enable colorblind friendly mode in your account settings.

Screenreaders & keyboard navigation

- Visual focus
- Descriptive links

git refresh

- save
- git add
- git commit
- git branch
- git branch [branch-name]
- git checkout [branch-name]

Q&A
