

AGENDA

- Bitcamp
- Merging PRs
- Discuss The Web's Grain
- Responsive web design
 - Discuss examples
 - Learn about media queries
 - RWD workflows
- Discuss Storyframes Before Wireframes
- Project 3

WRAPPING PROJECT 1

Switch to project1 branch

WRAPPING PROJECT 1

Do you still want to update your project based on my feedback?

- Take notes, but no action
- Carry on to the next step!

WRAPPING PROJECT 1

Do you have any local changes for your project1 branch **not** on GH?

- `git status`
- check source control explorer in VS Code

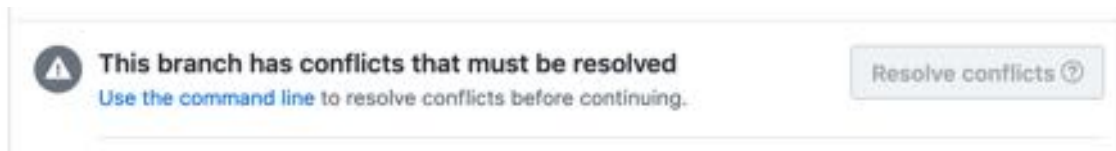

WRAPPING PROJECT 1

Do you have any local changes **not** on GH?

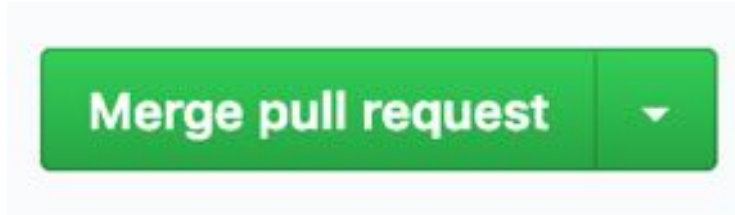

- Commit and push changes, then carry on!
- Let's see if we can merge your changes!

WRAPPING PROJECT 1

Can we merge?

MERGING PROJECT 1

MERGING PROJECT 1

After merging, you're 🙅 to delete the branch, too

READING: THE WEB'S GRAIN

Back then, if you told me that I'd get to spend the next decade or so making things for the web—well, that would be just about the best news I could be told.

READING: THE WEB'S GRAIN

...husked out, then leave frustrated,
exhausted, and conflicted.

READING: THE WEB'S GRAIN

You know how people say to add a breakpoint to a responsive design when the layout starts to look weird?

RWD

- examples
- media queries
- workflows

RWD
